About Evolve Recycling

Evolve Recycling is a national recycling program that helps businesses protect the environment and earn money by recycling for cash. We pay you to recycle empty toner, inkjet cartridges, cell phones, iPods/mp3 players, digital cameras, GPS devices and laptop computers. The money you'll earn can be used to recognize valued employees or simply help the bottom line.

We are a zero-waste national leader in the reverse logistics of recycled products that partners with businesses to divert reusable printer cartridges, cell phones and other small electronics from landfills.

Why Partner with Evolve?

An Industry Leader

- Industry leader in environmental reverse logistics solutions for ink/laser cartridges and small electronics
- Dedicated program management and industry leading reporting capabilities
- Environmental stewardship programs supported by certifications and 3rd party process validation

Certifications and Partnerships

R2 (Responsible Recycling) Certification – Highest industry standard for environmental responsibility and safety. Verifies environmentally responsible, safe and transparent management of used and end-of-life electronic equipment.

ISO 14001 Environmental Certification - Independent third party validation of environmental stewardship

3 Degrees Partnership - Strategic partnership supporting our renewable energy credit initiatives

EPA Green Power Partner - Recognizes offset of energy consumption through purchase of REC's

Waste Wise Program Participant- Recognizes commitment to waste reduction

Why Partner with Evolve?

Knowledge & Experience

- Evolve Recycling has the experience, processes, skills and scalability to manage the unique needs of your printer cartridge, cell phone and small electronics collection program.
- Recyclables will be inspected within two weeks of shipment. You will receive payment the month following shipment.

Custom Facility

- State-of-the-art processing center was custom built for the specific purpose of receiving, identifying and processing shipments of cartridges, cell phones and now small electronics from thousands of unique customers.
- Custom-developed, proprietary inventory management and logistics application written by in-house developers/analysts allows flexibility to adapt to your needs.
- Capacity to receive and process over 40 million printer cartridges, cell phones and small electronics each year.

Our Process

Participant Flow

Resources

Invite customers and employees to recycle with your business. Telling customers about your sustainability initiatives creates a more positive corporate image, and recent studies show employees are more likely to be satisfied with their jobs if they work at a company considered environmentally friendly.

Prepaid UPS shipping labels

Order self-adhesive shipping labels or print labels from your computer at EvolveRecycling.com > Your Account > Print Shipping Labels, or Order Shipping Labels.

Shipping boxes

Shipping boxes ordered from Evolve Recycling arrive with UPS labels already applied for your convenience. Or you can recycle boxes by shipping recyclables in sturdy cardboard boxes from grocery and office supply stores.

Collection bins

Increase awareness of your recycling efforts with a free collection bin. Countertop bins (15" tall) and floor model bins (43" tall) are visible proof of your company's commitment to be a good steward of the environment.

Marketing materials

Download posters and/or brochures from EvolveRecycling.com to help promote your program. A local printer can enlarge posters to specific sizes to meet your needs.

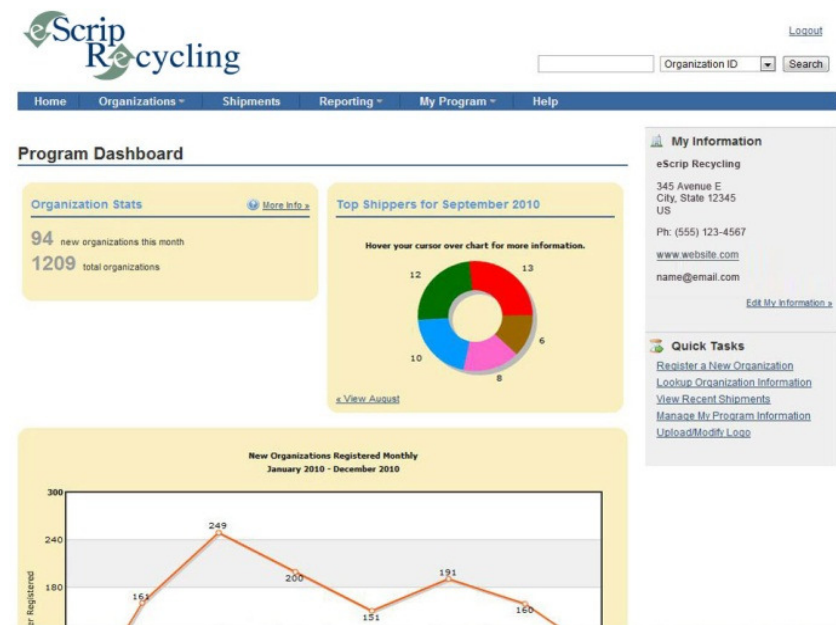

Business Model

Easily Track Your Earnings on Evolve's Administrative Extranet

This web-based portal allows you to monitor the progress of your entire program from one location.

- Full visibility and control of your collection program and ability to access information on other branches/locations
- Run program level reports of real time data
- View the details of any of your shipments and payments

Easy Registration Process

- 1 Select Register
Provide contact information for your program coordinator
 - How did you hear about us = Referral
 - Rep ID = Jim Vitiello
- 2 Provide shipping address for where you would like supplies delivered
- 3 Provide payment address for where you would like payment sent
- 4 Create a password and select register

FAQ's

What items do you recycle?

Laser toner & inkjet cartridges, cell phones, iPods, mp3 players, digital cameras, GPS devices and laptop computers.

How much are recyclables worth?

The reuse market dictates value. Prices vary by make, model and market timing.

When and how will our business get paid?

Monthly and once your value exceeds \$25.00. Values under \$25.00 will accrue until this minimum threshold is reached.

What happens to items that cannot be reused?

As a zero-waste company, almost 70% of items received are remanufactured, thus reused. The remainder is de-manufactured by EPA-certified companies and raw materials are recycled to manufacture new products.

What about confidential data on my cell phone or laptop computer?

We wipe hard drives clean during inspection, but we recommend confidential data be deleted before recycling.

Thank you!
